

Tornillo Wireless Internet Acceptable Use Policy

Tornillo's Wireless Internet looks forward to creating an on-line community that can be enjoyed by all members.

Tornillo Wireless Internet seeks to create and foster an on-line community that can be used and enjoyed by all its members. Tornillo ISD Wireless has developed an Acceptable Use Policy. Tornillo ISD takes these issues very seriously and will enforce its rules to ensure enjoyment by all of its members.

Tornillo ISD reserves the right to remove any content posted to its system that it deems offensive, inappropriate or violative of its policies. It also reserves the right to suspend or cancel a subscriber's account for engaging in inappropriate conduct. (Subscribers, of course, also remain legally responsible for any such acts.) In using Tornillo's wireless internet, subscribers accept this non-exhaustive list of restrictions.

Tornillo's wireless service is provided to you for personal, non-commercial use only. This service cannot be used for any enterprise purpose whatsoever whether or not the enterprise is directed toward making a profit.

Tornillo's wireless internet service may not be used to engage in any conduct that interferes with Tornillo's ability to provide service to others, including the use of excessive bandwidth.

Tornillo's wireless internet service may not be used to breach or attempt to breach the security, the computer, the software or the data of any person or entity, including Tornillo ISD, to circumvent the user authentication features or security of any host, network or account, to use or distribute tools designed to compromise security, or to interfere with another's use of the Tornillo's service through the posting or transmitting of a virus or other harmful item or to deliberately overload or flood that entity's system.

In using Tornillo's wireless internet service, you may not use an IP address or client ID not assigned to you, forge any TCP/IP packet header or any part of the header information in an e-mail or newsgroup posting or probe, scan or test the vulnerability of any system or network by the use of sniffers, SNMP tools or any other method.

Tornillo's wireless internet service may not be used to post or transmit content that violates child pornography statutes or contains graphic visual depictions of sexual acts or sexually explicit conduct involving children, or other depictions of children, the primary appeal of which is prurient.

Tornillo's wireless internet service may not be used to upload, post, transmit or otherwise make available any materials or content that violate or infringe on the rights or dignity of others. These include, but are not limited to, materials infringing or compromising intellectual property rights or any party's ability to maintain trade secrets and other personal information as private; hate speech; threats of physical violence; harassing

conduct; sexually oriented material that is offensive or inappropriate; and unsolicited bulk e-mail.

Tornillo's wireless internet service may not be used to engage in or foster any consumer fraud such as illegal gambling, "Make Money Fast" schemes, chain letters, Pyramid, or other investment schemes, or to make or encourage people to accept fraudulent offers of products, items or services, originating from your account, or through a third party which implicates your account or to post or transmit off-topic or commercial messages on bulletin boards.

You may not engage in any of the above activities using the service of another Internet provider, while channeling such activities through your Tornillo account or using this account as a mail drop for responses.

If you have any questions regarding this policy, please feel free to contact our Technology Department.
