Part (i): General Description of the Texas State Accountability System Under Subsection (c)

Part (i)(I) the minimum number of students that the State determines are necessary to be included in each of the subgroups of students, as defined in subsection (c)(2), for use in the accountability system;
The Texas accountability minimum size criteria are 25 tests for assessments related indicators or 25 students for non-assessment related indicators, such as graduation, for any student group, and 10 tests or students for All student group.

Part (i)(II) the long-term goals and measurements of interim progress for all students and for each of the subgroups of students, as defined in subsection (c)(2);

Part (i)(III) the indicators described in subsection (c)(4)(B) used to meaningfully differentiate all public schools in the State;
a. Academic Achievement Indicator: STAAR Performance Status (Percent at or above Meets Grade Level)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12;
Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including:
(aa) the specific weight of the indicators described in subsection (c)(4)(B) in such differentiation;

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language proficiency	10%
	SQSS: Student Achievement Domain Score	10%
High Schools and K-12	Academic Achievement	50%
	4-Year Graduation Rate	10%
	English Learner Language proficiency	10%
	SQSS: College, Career, and Military Readiness	30%

(bb) the methodology by which the State differentiates all such schools;
A weighted average of the accountability indicators will be computed from the number of items meeting targets divided by the number of items evaluated. The weighted average will be scaled to grades A (90-00), B (80-89), C (70-79), D (60-69), and F (0-59) and further used to differentiate all public schools.
(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students described in section (c)(4)(C)(iii), including the time period used by the State to determine consistent underperformance;
Student group achievement is monitored annually through the Closing the Gaps domain of the State accountability. Any campus that has one or more achievement gap(s) between individual student groups and the interim goals for three consecutive years will be identified as a consistently underperforming school.
(dd) the methodology by which the State identifies a school for comprehensive support and improvement as required under subsection (c)(4)(D)(i);
The Closing the Gaps domain scaled score is used to identify schools for comprehensive support and improvement. TEA rank orders the scaled domain score for all campuses. The lowest five percent of campuses that receive Title I, Part A funds are identified for comprehensive support and improvement. Also, if a campus does not attain a 67 percent four-year graduation rate for the all students group, the campus is also automatically identified for comprehensive support and improvement. Additionally, any Title I campus identified for targeted support and improvement for three consecutive years is identified for comprehensive support and improvement the following school year.
TEA will annually identify campuses for comprehensive support and improvement beginning with the August 2018 accountability release, which is based on school year 2017-18 performance data.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i) or implementing targeted support and improvement plans under subsection (d)(2);
Comprehensive Support and Improvement Schools and **Additional Targeted Support Schools** list those campuses that have been identified for comprehensive support and additional targeted support based on performance in the Closing the Gaps domain (Excel file).

Part (i)(VI) the exit criteria established by the State as required under clause (i) of subsection (d)(3)(A), including the length of years established under clause (i)(II) of such subsection.
Campuses that do not rank in the bottom five percent of the Closing the Gaps domain for two consecutive years and have increased a letter grade (for example, from F to D or from D to C) on the Closing the Gaps domain will be considered as having successfully exited comprehensive support and improvement status.

To exit additional targeted support and improvement status, a student group must meet at least 50 percent of the indicators evaluated and meet the targets for the Academic Achievement component in both reading and mathematics.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, ELA/reading, and science by grade level and proficiency level for the 2017-18 school year. These results include all students tested, regardless of whether they were in the accountability subset.

There is no data for this campus.

Part (iii): Academic Growth and Graduation Rate

Part (iii)(I): Academic Growth
This section provides information on students' academic growth for mathematics and ELA/reading for public elementary schools and secondary schools which don't have a graduation rate. These results include all students tested, regardless of whether they were in the accountability subset.

There is no data for this campus.

Part (iii)(II): Graduation Rate
This section provides information on high school graduation rates.

There is no data for this campus.

Part (iv): English Language Proficiency

This section provides information on the number and percentage of English learners achieving English language proficiency.

Total EL in Class	Proficiency of EL	Rate of Proficiency

'*'   Indicates results are masked due to small numbers to protect student confidentiality.
'-'   Indicates zero observations reported for this group.

Part (v): School Quality or Student Success (SQSS)

This section provides information on the other indicator of school quality or student success, which is college, career and military readiness (CCMR) for high schools and average performance rate of the three STAAR performance levels of all students, regardless of whether they were in the accountability subset, for elementary and secondary schools without a graduation rate.

There is no data for this campus.

Part (vi): Goal Meeting Status

This section provides information on the progress of all students and each student group toward meeting the long-term goals or interim objectives on STAAR academic performance, federal graduation rate, and English learners' language proficiency.

Part (x): Per-pupil Expenditure

This section provides information on the per-pupil expenditures of federal, state, and local funds, including actual personnel expenditures and actual non-personnel expenditures, disaggregated by source of funds, for each school district and campus for the preceding fiscal year.

The Public Education Information Management System (PEIMS) encompasses all data requested and received by Texas Education Agency (TEA) about public education, including student demographic and academic performance, personnel, financial, and organizational information. The submission of PEIMS data is required of all local education agencies (LEAs).

The TEA will utilize PEIMS submissions to develop and report the per-pupil expenditures of Federal, State, and local funds, including actual personnel expenditures and actual non-personnel expenditures of Federal, State, and local funds, disaggregated by source of funds, for each LEA and each school in the State for the preceding fiscal year; the data will be reported on 2018-2019 school year report cards.

Part (xi): STAAR Alternate 2 Participation

This section provides information on the number and percentage of students with the most-significant cognitive disabilities who take STAAR Alternate 2, by grade and subject.

<div align="center">There is no data for this campus.</div>

Part (xii): Statewide National Assessment of Educational Progress (NAEP)

This section provides results on the state academic assessments in reading and mathematics in grades 4 and 8 of the National Assessment of Educational Progress, compared to the national average of such results.

UNDERSTANDING OVERALL PERFORMANCE

This report card is designed to tell us how well we are helping students reach grade level and how well we are preparing them for success after high school. Much like the grades we give students, we can use these grades to identify ways to help schools improve over time. The overall grade is based on performance in three different areas, or domains, which are noted below.

STUDENT ACHIEVEMENT
Not Rated

The Student Achievement domain tells us how much students know and are able to do at the end of the school year.

SCHOOL PROGRESS
Not Rated

The School Progress domain shows us how students are performing over time and compares that progress to similar schools.

CLOSING THE GAPS
Not Rated

The Closing the Gaps domain tells us how well different populations of students on a campus are performing.

STUDENT ACHIEVEMENT

This school is a paired school and does not have sufficient data for their own rating.

SCHOOL PROGRESS
