### Independent Auditor's Report

To the Board of Trustees  
Tornillo Independent School District

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tornillo Independent School District (District) as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, pension and other post employment benefits information on pages 9 through 18 and 71 through 79 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary and Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and the required TEA schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The required TEA schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

In this section of the Annual Financial and Compliance Report, we the managers of Tornillo Independent School District, discuss and analyze the District's financial performance for the fiscal year ending August 31, 2020. Please read it in conjunction with the District's financial statements, which follow this section.

### **USING THIS REPORT**

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities, which provide information about the activities of the District as a whole, present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund Financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about the activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statement provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain additional information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds in compliance with the terms of grants.

### **Reporting the District as a Whole**

#### **The Statement of Net Position and the Statement of Activities**

The primary purpose of the analysis of the District's overall financial condition and operations is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies. All of the current year's revenues and expenses are considered regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the District and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

Governmental activities - Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

### **Reporting the District's Most Significant Funds Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds, not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under Every Student Succeeds Act (ESSA) from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (i.e., campus activities).

All of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

### **The District as Trustee**

#### **Reporting the District's Fiduciary Responsibilities**

The District is the trustee, or fiduciary, for money raised by student activities and alumnae scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

This commitment included \$80,000 for campus furniture, \$90,000 for student 1:1 technology initiative, \$147,848 to address District safety needs, \$50,700 to purchase and repair equipment, \$324,498 to replace buses, \$268,912 to repair and replace roofs, \$97,400 to replace vehicles. During 2020, The board approved \$104,498 of committed fund balance to be reassigned out of District safety needs (\$5,850), roof repairs (\$66,088), vehicle replacement (\$17,560) and HVAC repairs (\$15,000) to increase funds committed to replace buses. During 2020, \$107,565 payments were made to finish the repair of roofs at Tornillo Junior High School and Tornillo Intermediate and to replace the roof at the Administration office. In addition, \$33,701 was spent to purchase a bobcat skid-steer loader and \$17,000 to repair the backhoe. Tornillo Junior High received furniture in the amount \$32,824 and all District offices have building access control at a cost of \$36,010. Tornillo Elementary and High School received PA systems upgrades \$24,468 and Intrusion alarm systems \$29,225. Finally, two facility vehicles were received in the amount of \$39,570. As of August 31, 2020, the committed fund balance was \$354,905.

The District scored 84 out of 100 possible points for 2019-2020 Financial Integrity Rating System of Texas (FIRST) based on 2018-2019 data, which resulted in a "Above Standard" rating.

### **Government-Wide Financial Analysis**

Our analysis of comparative balances and changes therein compares both current and prior year data and discuss significant changes in the accounts. Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental activities.

Net position of the District decreased from \$11,362,229 in fiscal year 2019 to \$10,626,169 in 2020. The decrease in governmental is mainly attributed to increases in expenses and spend down of committed and assigned fund balance.

The total cost of all programs and services was \$17.3 million. 52 percent of these costs were for instructional student services. 7 percent for all programs and services cost was for instructional and school leadership and 15 percent was for plant maintenance, security and data processing services.

## THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported combined fund balances of \$8.1 million which decreased from last year's total of \$8.6 million.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of 2020, the District had \$29,076,159 invested in a broad range of capital assets including payments for roof repairs at Tornillo Junior High School and Tornillo Intermediate School, payment for roof replacement at the Administration office and Security upgrades at Tornillo Elementary School and Tornillo Junior High School.

### Debt

At year-end, the District had \$16.8 million in bonds outstanding versus \$17.4 million last year. In December 2020, the board approved and issued \$1,770,000 and \$2,520,000 in Unlimited Tax Refunding Bonds to refund portions of the 2012 Bonds and the 2013 Bonds. The refunding will save the District \$209,175 in cash flow.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The District's student population continues to show a decrease over previous years. Due to the District's proximity to the Border, it is not unusual to see students return to their Country of Origin especially during the last couple of years in which the wave of violence has decreased in our neighboring city of Cd. Juarez, Mexico. In addition, several families have moved out of the District into neighboring school Districts or have relocated to the Midland area seeking employment opportunities in the oil industry. With historic enrollment trends in mind, the Board of Trustees and Administration continue to use a conservative budget approach to ensure next year's budget is balanced. Other areas such as staffing ratios and attendance projections are considered during the budget development process.

In addition, March 13, 2020, the Governor of Texas declared a state of disaster in response to the COVID-19 pandemic. The District shifted to hybrid approach of remote learning and in person teaching. The Texas Education Agency (TEA) has issued updated planning and health guidance related to instructional and operational flexibilities to address on campus and virtual instruction. For 2020-2021 school year, TEA has implemented a grace period for the two six weeks of Foundation Program reporting for average daily attendance (ADA), specifically, if ADA counts during the first two six weeks were less than the Districts ADA hold harmless projections, the first two six weeks attendance counts will be replaced with estimated attendance counts calculated using a three-year average trend of final numbers from 2017-2018 through 2019-2020 school years. The ongoing impact of COVID-19 on the District's operational and financial performance will depend on future developments and the effectiveness of mitigation strategies of rapid testing, temperature checks, utilization of facemask 100% of time, distancing and disinfecting of areas of contamination, duration of pandemic, and any future governmental actions, all of which are uncertain.

Our Board adopts its budget using conservative Average Daily Attendance estimates. We maintained the local Maintenance and Operations tax rate at \$1.016 in order to maximize the Tier II State Funding. Tornillo ISD currently qualifies for approximately 80% funding by the state for its debt service obligations; with the remaining 20% satisfied through the District's Debt Service Taxes. It has long been the Board's objective to maintain a significant fund balance to make new construction and/or renovations to existing structures, should the need arise.

The Interest and Sinking tax rate will be maintained at the rate of \$0.3843 during the current year in order to meet the debt obligations. The Maintenance and Operation tax rate will remain at \$1.09 per every hundredth valuation for a combined tax rate of \$1.4008.

The District continues to apply and qualify for various Federal Program Grants that assist in the enhancement of education for students identified with special needs. These funds constitute a significant portion of our operating budget.

## **BUDGETARY HIGHLIGHTS**

GASB Statement 34 required that we provide a discussion on significant variances between the District's original budget, final budget, and actual expenditures, and the impact of these variances on the District's/department's future liquidity.

*General Fund.* The FY 2020 budget was developed by balancing challenges of an increase in operational cost and maintaining an adequate fund balance reserve to ensure financial stability. The most significant fund for the District is the General Fund, funded primarily through state aide and property tax revenue.

Over the course of the year, the District approved several budget amendments. These amendments increased the function and included:

- Function 11 –CCMR and Early Childhood allotment increase (\$138,319), the replacement of teacher and student furniture at Tornillo Junior School (\$14,498), the purchase of student laptops associated with the 1:1 Student Laptop Initiative (\$34,060);
- Function – 12 – Purchase of library furniture at Tornillo Junior High School (\$18,337)
- Function 13 – Increase in early education allotment for professional development activities (\$181,000)
- Function 34 – The purchase of buses and 15 passenger van estimated (\$425,153)
- Function 51 – Roof repairs (\$96,244) , the purchase of a bob cat skid-steer loader (\$33,700), repair Districts back-hoe( \$17,000)and two maintenance vehicles (\$39,570), Building Demolition (\$39,595)
- Function 52 – Upgrades to Tornillo High School and Tornillo Intermediates PA systems (\$24,468), Building Access controls Districtwide (\$36,010), Intrusion alarm system at Tornillo High School (\$29,225);
- Function 81 – Replacement of roofs (\$44,972); and
- Various Functions – Amendment related to TRS On-behalf in the amount of \$490,000 affected various functions with Function 11 (\$273,000) being significantly affected.

Budget amendments that increase or decrease the amount in a function are presented to the Tornillo ISD Board of Trustees for approval.

Exhibit G-1 of the financial statements includes a Statement of Revenues, Expenditures, and Changes in Fund Balance report that compares original and final budget amounts to actual amounts as of year-end close. The final column of the report lists of the variance as compared to the final budget.

At the end of the fiscal year, the District's actual revenues of \$12,846,492 were in line with projected revenues.

Total functions within the approved budget did not exceed the total approved appropriation.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE  
STATEMENT OF NET POSITION  
AUGUST 31, 2020

EXHIBIT C-2

|   |                      |
|---|----------------------|
| <b>Total Fund Balances - Governmental Funds</b>   | <b>\$ 8,165,783</b>  |
| 1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$44,911,702 and the accumulated depreciation was (\$15,226,819). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position. | 11,003,662           |
| 2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2020 capital outlays and debt principal payments is to increase net position.   | 1,409,336            |
| 3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$1,997,099, a deferred resource inflow in the amount of \$907,334, and a net pension liability in the amount of \$3,879,085. This resulted in a decrease in net position.   | (2,789,320)          |
| 4 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required b GASB 75. The net position related to TRS-Care included a deferred resource outflow in the amount of \$1,078,017, a deferred resource inflow in the amount of \$2,290,822, and a net OPEB liability in the amount of \$4,908,811. This resulted in a decrease in net position.   | (6,121,616)          |
| 5 The 2020 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.  | (1,247,660)          |
| 6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.   | 205,984              |
| <b>19 Net Position of Governmental Activities</b>   | <b>\$ 10,626,169</b> |

## NOTES TO THE BASIC FINANCIAL STATEMENTS

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tornillo Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

#### A. Reporting Entity

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. The Board also has primary accountability for fiscal matters; therefore, the District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB").

The decisions to include or exclude a potential component unit in the reporting entity were made by applying standards contained in GAAP. The primary standard for including or excluding a potential component unit is whether it is financially dependent on the reporting entity. The fiscal dependency criterion also required that a financial benefit or burden relationship be present in order for a potential component unit to be included in the financial reporting entity. Other manifestations of the ability to exercise oversight responsibility include, but certainly are not limited to, the selection of the governing authority, the designation of management, the ability to materially influence operations and accountability for fiscal matters. The second standard used to evaluate potential component units is the scope of public services. Application of this standard entails considering whether the activity benefits the District, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. The third standard involved in evaluating whether potential component units are included or excluded from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities.

Based upon the application of these criteria, there are no component units to be included within the reporting entity.

#### **B. Government-Wide and Fund Financial Statements**

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, charges to school districts for services, state funds, grants and other intergovernmental revenues.

In addition to assets, the statement of net financial position may report a separate section of deferred outflows of resources. This separate financial statement category represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. For pensions and OPEB, this outflow results from pension plan and OPEB contributions made after the measurement date of the net pension and OPEB liabilities and the results of differences between expected and actual economic experiences. The deferred outflow of resources related to pensions and OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension and OPEB liabilities in the next fiscal year. The other pension and OPEB related deferred outflows will be amortized over a systematic and rational method over a closed period.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement category represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. For pensions, these deferred inflows result primarily from differences between projected and actual earnings on pension plan investments. For OPEB, these deferred inflows result primarily from differences between expected and actual experiences as well as changes in actuarial assumptions. These amounts will be amortized over a systematic and rational method over a closed period.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflow of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. The Plan's fiduciary net position has been determined on the same basis as that used by the Plan. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

### **I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The “Charges for Services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Direct expenses are those that are clearly identifiable with a specific function or segment. Examples of program revenues include tuition paid by students not residing in the district, school lunch charges, etc. The “Grants and Contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District’s functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to or due from on the government-wide Statement of Net Position.

The fund financial statements reports on the financial condition and results of operations for two fund categories - governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds as major and reports their financial condition and results of operations in a separate column.

### **C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, deferred inflows of resources, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues, other than property tax revenue, available if they are collectible within one year after year end.

### **I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Revenues from local sources consist primarily of property taxes. Revenues received from the State are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. The District considers property tax revenue available if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Unavailable revenue from property taxes arises only under modified accrual basis of accounting. The governmental funds report this unavailable revenue as deferred inflow of resources, which is recognized revenue in the period that the amounts become available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. Within this measurement focus, assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the fund Statement of Net Position.

### **D. Fund Accounting**

The District reports the following major governmental fund:

1. General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Additionally, the District reports the following fund types:

#### **GOVERNMENTAL FUNDS:**

1. Special Revenue Funds - The District accounts for resources restricted for specific purposes by a grantor in a special revenue fund. Most federal and state financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances are returned to the grantor at the close of specified project periods.
2. Debt Service Fund - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

### **I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

3. Capital Projects Fund - The proceeds from long-term debt financing will be used to construct, renovate, acquire and equip school buildings in the District and pay any associated costs.
4. Permanent Funds - Account for donations for which the donor has stipulated that the principal may not be expended and where the income may only be used for purposes that support the District's program. The District has no permanent funds.

#### **PROPRIETARY FUNDS:**

5. Enterprise Funds - The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund. The District has no enterprise funds.
6. Internal Service Funds - These funds are used to account for financing of goods or services provided by one department to other departments of the District on a cost-reimbursement basis. The District has no internal service funds.

#### **FIDUCIARY FUNDS:**

7. Private Purpose Trust Funds - The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefits parties outside the District. The District has no private purpose trust funds.
8. Pension (and Other Employee Benefit) Trust Funds - These funds are used to account for local pension and other employee benefit funds that are provided by the District in lieu of or in addition to the Teacher Retirement System of Texas. The District has no pension trust funds.
9. Investment Trust Fund - This fund is one in which the District holds assets in trust for other entities participating in an investment program managed by the District. The District has no investment trust funds.
10. Agency Funds - The District accounts for resources held for others in a custodial capacity in agency funds. Assets equal liabilities, and this fund does not include measurement or results of operations. The District's agency fund is the Student Activity Account.

### **E. Other Accounting Policies**

1. For the purposes of the statement of cash flows for proprietary and similar fund-types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. Investments with an original maturity greater than one year from date of purchase are stated at fair value based on quoted market prices as of year end, except for nonparticipating interest-earning investment contracts which are reported at cost. Investments with an original maturity of less than one year are reported at amortized cost.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

AUGUST 31, 2020

---

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
4. The District reports inventories of supplies using the first in first out (FIFO) method and include food and non-food supplies, consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the Texas Department of Agriculture. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Agriculture and recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

Prepaid items on the balance sheet are accounting for using the consumption method and are recognized as expenditures over the periods in which the service is provided.
5. The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.
6. The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. Management asserts that the District is in substantial compliance with the requirements of the Act and with local policies.

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Additional policies and contractual provisions governing deposits and investments for the District are specified below:

***Credit Risk:***

Deposits - The District is not exposed to credit risk.

Temporary Investments - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations, the District limits investments in public funds investment pools to those that have received top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2020, the District's investments in Lone Star investment pool was rated AAAM by Standard & Poors.

***Custodial Credit Risk:***

Deposits - State law required governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. Since the District complies with this law, it has minimal custodial credit risk for deposits.

Temporary Investments - To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party, the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. This includes securities in securities lending transactions. Investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book-entry form.

***Concentration of Credit Risk:***

Deposits - The District is not exposed to concentration of credit risk.

Temporary Investments - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District's policy states that the portfolio must be diversified. Concentration of Credit Risk is not applicable to investment pools since the purpose of these pools is to diversify the District's investment portfolio.

***Interest Rate Risk:***

Deposits - The District is not exposed to interest rate risk.

Temporary Investments - To limit the risk that changes in interest rates will adversely affect the fair value of the investments, the District requires its investment portfolio to have maturities of less than one year on a weighted average maturity (WAM) basis. All of the District's investment pools use amortized cost and therefore the interest rate disclosure is not applicable.

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Foreign Currency Risk:*

Deposits - The District attempts to limit the risk that changes in exchange rates will adversely affect a deposit by avoiding deposits denominated in a foreign currency.

Temporary Investments - The District attempts to limit the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding investment pools which are denominated in a foreign currency.

8. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. When applicable, premiums and discounts are presented as a component of liabilities while deferred losses on refundings are presented as deferred outflows of resources. Both items are deferred and amortized over the life of the related debt using the straight line method. Long-term debt is reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. It is the District's policy to permit some employees to accumulate earned but unused vacation, sick leave, and local days. There is no liability for unpaid accumulated vacation, sick leave, and local days since the District does not have a policy to pay any amounts when employees separate from service with the District.
10. Capital assets, which include land, buildings, furniture and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of the receipt.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Buildings, furniture and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u>              | <u>Years</u> |
|----------------------------|--------------|
| Buildings and Improvements | 20 to 50     |
| Vehicles                   | 7 to 10      |
| Other Equipment            | 5 to 15      |
| Computer Equipment         | 5            |

11. Net Position on the Statement of Net Position include the following:

*Net investment in capital assets* - this component of net position consists of capital assets, net accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt will be included in this component of net position.

*Restricted for federal and state programs* - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets, which are restricted by federal and state granting agency(s).

*Restricted for Debt Service* - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. The assets arise from bond issuance which have constraints placed on them by the bond covenant(s) for the purpose of future debt service payments.

*Restricted for Campus Activities* - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets, which are restricted transactions related to a principal's activity fund.

*Unrestricted* - this component of net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District considers restricted resources to have been spent.

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. The District reports the following fund balance categories which describe the nature and the relative strength of the spending constraints:

*Nonspendable Fund Balance* - Represents amounts that are not in spendable form or are legally or contractually required to be maintained intact, such as inventories.

*Restricted Fund Balance* - Represents amounts that are restricted to specific purposes, with constraints placed on the use of resources by (a) external creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or (c) enabling legislation.

*Committed Fund Balance* - Represents amounts that are restricted for purposes which the Board of Trustees, the District's highest level of decision-making authority, has designated their use. These amounts are committed through a formal resolution, requiring funds to be used only for specific purposes. These amounts can only be re-allocated by the same formal action that was taken to originally commit those amounts. The Board of Trustees shall take action to commit funds for a specific purpose prior to the end of the fiscal year.

*Assigned Fund Balance* - Represents amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The governing body has delegated authority to the Superintendent or designated managers. Should the Board opt not to commit any balances, it will implicitly defer to the designees to make appropriate assignments.

*Unassigned Fund Balance* - Represents amounts that are available for any purpose and have not been restricted, committed, or assigned for specific purposes. Positive amounts are reported only in the general fund.

The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a formal resolution. Assigned fund balance is established by the Superintendent or designated managers through adoption or amendment of the budget as intended for specific purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, followed by assigned amounts, and then unassigned amounts when balance classifications could be used, unless the Board of Trustees or designee's have provided otherwise in its commitment or assignment actions.

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

13. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a state-wide data base for policy development and funding plans.
14. The District receives substantial amounts of funding from special revenue sources. The majority of this money is cost reimbursement to the District by the federal government or Texas Education Agency. The portion of revenue allowable for indirect cost is credited as revenue to the General Fund and as a reduction to revenue in the Special Revenue Fund, as appropriate. The indirect cost revenue is fully allocated to function 41, General Administration, in the Government-wide Statement of Activities as operating grants and contributions.
15. In accordance with the Resource Guide, the District has adopted and installed an accounting system which meets as least the minimum requirements presented by the Texas State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Resource Guide. Mandatory codes are recorded in the order provided in the Resource Guide.
16. Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.
17. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas legislature.

- F. The District implemented GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, which provides temporary relief to governments and other stakeholders in light of the COVID 19 pandemic. The objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018 and later.

### **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

#### **A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position**

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bond payable, and the District's proportionate share of the net pension and OPEB liabilities are not due and payable in the current period and are not reported as liabilities in the funds.

#### **B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities**

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position.

Another element of the reconciliation on the Exhibit C-4 include recognizing property tax revenue considered available and recognizing accruals of interest on long-term debt. In addition, certain pension and OPEB expenditures are de-expended and the District recorded its proportionate share of the pension and OPEB expense. These adjustments are necessary to convert from the modified accrual basis of accounting to the full accrual basis of accounting.

### **III. DETAILED NOTES ON ALL FUNDS**

#### **A. Deposits and Investments**

At August 31, 2020, the carrying amount of the District's deposits (cash, and interest-bearing savings accounts including fiduciary funds cash) was \$148,517 and the bank balance was \$511,193. The District's cash deposits at August 31, 2020 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: WestStar Bank.
- b. The market value of bonds and securities pledged as of the date of the highest combined balance on deposit was \$1,422,292.

### III. DETAILED NOTES ON ALL FUNDS (Continued)

- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$1,097,783 and occurred during the month of June 2020.
- d. Total amount of FDIC coverage at the time of the largest combined balance was \$250,000.

Due to the immediate availability of the funds, the District's temporary investments are presented as cash and cash equivalents as of August 31, 2020 and, include the following:

|   | <u>Account Balance</u>     |
|---|----------------------------|
| Lone Star:                              |                            |
| Corporate and Government Overnight Fund |                            |
| (amortized cost)                        | <u>\$ 6,808,986</u>        |
|   | <u><u>\$ 6,808,986</u></u> |

The Lone Star Investment Pool is a member owned, member-governed public funds investment pool. It is managed by an eleven member Board of Trustees and the Board is authorized to adopt and maintain bylaws. There is also an Advisory Board composed of participants that gathers and exchanges information from participants relating to the operation of the Pool. Each fund within the Pool has received the highest rating, that of AAA, from Standard & Poor's as required by the Public Fund's Investment Act. Lone Star Investment Pool issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by calling Lone Star at 1-800-558-8875. Management is not aware of the presence of any limitations or restrictions on withdrawals such as redemption notice periods, maximum transaction amounts, and the qualifying external investment pool's authority to impose liquidity fees or redemption gates.

#### B. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. A majority of the federal grants are passed through the TEA.

Amounts due from federal and state governments as of August 31, 2020 are summarized below.

|                | General Fund        | Nonmajor<br>Governmental<br>Funds | Total               |

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions at August 31, 2020. For the year ended August 31, 2020 the District paid \$733,218 in interest costs related to bonds payable.

Rebatable Arbitrage - The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least five years. Arbitrage is evaluated and estimated on an annual basis by a third party. The company has estimated no liability for the District as of August 31, 2020.

#### I. Defined Benefit Pension Plan

**Plan Description:** The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position:** Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

**Benefits Provided:** TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

In May 2019, the 86<sup>th</sup> Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13<sup>th</sup> check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

**Contributions:** Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86<sup>th</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee and employer contribution rates for fiscal years 2020 through 2025.

| 2019 Plan Year NECE On-Behalf Contributions (State) | 408,838    |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies, including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

### III. DETAILED NOTES ON ALL FUNDS (Continued)

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.
- When the employing district is a public or charter school, the employer shall contribute 1.5 percent of covered payroll to the pension fund beginning in fiscal year 2020. This contribution rate called the Public Education Employer Contribution will replace the Non-OASDI surcharge that was in effect in fiscal year 2019.

Included in the employer contributions amount listed above for fiscal year 2020, the District paid a retiree surcharge during the fiscal year of \$16,397 and paid \$98,921 for non-OASDI employees. These two additional surcharges an employer is subject to are summarized as follows:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees. This surcharge was in effect through fiscal year 2019 and was replaced with the Public Education Employer Contribution explained above.

**Actuarial Assumptions:** The actuarial valuation was performed as of August 31, 2018. Update procedures were used to roll forward the total pension liability to August 31, 2019. The actuarial methods and assumption used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2018. The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three year period ending August 31, 2018 and were adopted in July 2018. The following table discloses the assumptions that were applied to this measurement period:

**Discount Rate:** The single discount rate used to measure the total pension liability was 7.25 percent. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and State contributions for active and rehired retirees. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.25 percent and was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 are summarized below:

## NOTES TO THE BASIC FINANCIAL STATEMENTS

AUGUST 31, 2020

### III. DETAILED NOTES ON ALL FUNDS (Continued)

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:*** At August 31, 2020, the District reported a liability of \$3,879,085 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

|  |                            |
|--|----------------------------|
| The District's proportionate share of the collective net pension liability | \$ 3,879,085               |
| State's proportionate share that is associated with the District           | <u>6,072,243</u>           |
| Total  | <u><u>\$ 9,951,328</u></u> |

The net pension liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the employer's proportion of the collective net pension liability was 0.0074622002% which was an increase of 0.0004347505% from its proportion measured as of August 31, 2018.

***Changes since the Prior Actuarial Valuation:*** The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas legislature approved funding for a 13<sup>th</sup> check. All eligible members retired as of December 31, 2018 will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2020, the District recognized pension expense of \$953,864 and revenue of \$953,864 for support provided by the State.

The amount of pension expense recognized by the District in the reporting period was \$1,726,987.

### III. DETAILED NOTES ON ALL FUNDS (Continued)

**Payable to the Pension Plan:** At August 31, 2020, the District reported a payable of \$124,507 to the pension plan for the outstanding amount of contractually required contributions related to past service costs. Member contributions included in this payable were \$79,686.

#### I. Defined Other Post-Employment Benefit Plan

**Plan Description:** The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

**OPEB Plan Fiduciary Net Position:** Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

**Benefits Provided:** TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

| TRS-Care Monthly Plan Premium Rates      |          |       |              |
|--|----------|-------|--------------|
|  | Medicare |       | Non-Medicare |

### III. DETAILED NOTES ON ALL FUNDS (Continued)

**Contributions:** Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay. The following table shows contributions to the TRS-Care plan by type of contributor.

|   | <u>Contributions Rates</u> |        |
|---|----------------------------|--------|
|   | 2019                       | 2020   |
| Active Employee                                     | 0.65%                      | 0.65%  |
| Non-Employer Contributing Entity (State)            | 1.25%                      | 1.25%  |
| Employers   | 0.75%                      | 0.75%  |
| Federal/Private Funding remitted by Employers       | 1.25%                      | 1.25%  |
| FY 2020 Employer Contributions                      | \$                         | 74,082 |
| FY 2020 Member Contributions                        |                            | 55,397 |
| 2019 Plan Year NECE On-behalf Contributions (State) |                            | 97,884 |

Included in the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS-Care OPEB program. When employers hire a TRS retiree, they are required to pay to TRS-Care a monthly surcharge of \$535 per retiree. During the year ended August 31, 2020, the District paid \$1,070 in retiree surcharges.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

House Bill 1, 86<sup>th</sup> Texas Legislature, Regular Session, 2019 was passed to provide an additional \$230 million to continue to support the program. The District's proportionate share of this amount totaled \$23,952, representing the 12 months TRS received payments from September 1, 2019 through August 31, 2020.

### III. DETAILED NOTES ON ALL FUNDS (Continued)

**Actuarial Assumptions:** The total OPEB liability (TOL) in the August 31, 2018 actuarial valuation was rolled forward to August 31, 2019. The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The total OPEB liability in the August 31, 2019 actuarial valuation was determined using the actuarial assumptions below. Those assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation:

|                               |                   |
|-------------------------------|-------------------|
| Rates of Mortality            | General Inflation |
| Rates of Retirement           | Wage Inflation    |
| Rates of Termination          | Salary Increases  |
| Rates of Disability Incidence |                   |

#### **Additional Actuarial Methods and Assumptions:**

|                         |  |
|-------------------------|--|
| Valuation Date          | August 31, 2018 rolled forward to August 31, 2019  |
| Actuarial Cost Method   | Individual Entry Age Normal  |
| Inflation               | 2.30%  |
| Single Discount Rate    | 2.63% as of August 31, 2019  |
| Salary Increases        | 3.05% to 9.05%, including inflation  |
| Demographic Assumptions | The rates of mortality, retirement, termination and disability incidence are identical to the assumptions used to value the pension liabilities of TRS. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.  |
| Mortality Assumption    | The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP). |
| Health Care Trend Rates | Initial medical trend rates of 10.25 percent for Medicare retirees and 7.5 percent for non-Medicare retirees. Initial prescription drug trend rate of 10.25 percent for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.50 percent over a period of 13 years.  |

| Election Rates                         | Normal Retirement: 65 percent participation prior to age 65 and 50 percent participation after age 65.  |
| Aging Factors                          | Based on plan specific experience.  |
| Expenses                               | Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.  |
| Other Information                      |   |
| Ad hoc post-employment benefit changes | None  |
| Notes                                  | Assumption changes include a discount rate change from 3.69% as of August 31, 2018 to 2.63% as of August 31, 2019, lower participation rates, and updates to the health care trend assumptions. |

The impact of the Cadillac Tax that was expected to return in the plan's fiscal year 2023 has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax
- There were no special adjustments to the dollar limit other than those permissible for the non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption. On December 20, 2019, the President signed into law a full repeal of the Cadillac Tax.

**Discount Rate:** A single discount rate of 2.63 percent was used to measure the total OPEB liability. There was a decrease of 1.06 percent in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to *not be able* to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Discount Rate Sensitivity Analysis:** The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the Net OPEB Liability.

|  | 1% Decrease in<br>Discount Rate<br>1.63% | Current Single<br>Discount Rate<br>2.63% | 1% Increase in<br>Discount Rate<br>3.63% |

### III. DETAILED NOTES ON ALL FUNDS (Continued)

**Healthcare Cost Trend Rates Sensitivity Analysis:** The following presents the Net OPEB Liability of the plan using the assumed healthcare cost trend rate, as well as what the Net OPEB Liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed health-care cost trend rate:

|  | 1% Decrease  | Current<br>Healthcare Trend<br>Rate | 1% Increase  |
|--|--------------|-------------------------------------|--------------|
| District's proportionate share of<br>the Net OPEB Liability: | \$ 4,004,436 | \$ 4,908,811                        | \$ 6,120,259 |

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs:** At August 31, 2020, the District reported a liability of \$4,908,811 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

|   |                             |
|---|-----------------------------|
| The District's proportionate share of the collective Net OPEB Liability | \$ 4,908,811                |
| State's proportionate share that is associated with the District        | <u>6,522,712</u>            |
| Total   | <u><u>\$ 11,431,523</u></u> |

The Net OPEB Liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the Total OPEB liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the employer's proportion of the collective Net OPEB Liability was 0.0103799624%, which was an increase of 0.0008853869% from its proportion measured as of August 31, 2018.

**Changes Since the Prior Actuarial Valuation:** The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent as of August 31, 2019. This change increased the total OPEB liability.
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the total OPEB liability.

### III. DETAILED NOTES ON ALL FUNDS (Continued)

- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the total OPEB liability.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumptions for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the total OPEB liability.

There were no changes to benefit terms that affected measurement of the Total OPEB Liability during the measurement period.

For the year ended August 31, 2020, the District recognized OPEB expense of \$171,912 and revenue of \$171,912 for support provided by the State.

The amount of OPEB expense recognized by the District in the reporting period was \$340,222.

At August 31, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits (OPEB) from the following sources:

|  | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between expected and actual economic experience  | \$ 240,819                           | \$ 803,275                          |
| Changes in actuarial assumptions   | 272,646                              | 1,320,350                           |

| Changes in proportion and difference between the District's contributions and the proportionate share of contributions | 489,940                              | 167,197                             |
| Contributions paid to TRS subsequent to the measurement date   | 74,082                               | -                                   |
| Total  | <u>\$ 1,078,017</u>                  | <u>\$ 2,290,822</u>                 |

The \$74,082 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended August 31, 2021. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

***Payable to the OPEB Plan:*** At August 31, 2020, the District reported a payable of \$15,128 to the OPEB plan for the outstanding amount of contractually required contributions related to past service costs. Member contributions included in this payable were \$6,727.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. Medicare Part D contributions made on behalf of the District's employees for the year ended August 31, 2020, 2019 and 2018 were \$38,441, \$28,140, and \$24,693, respectively. These amounts are recorded as equal revenues and expenditures in the governmental fund financial statements of the District.

**K. Health Care Coverage**

During the year ended August 31, 2020, Tornillo Independent School District participated in the TRS - Active Care Health Insurance Program. During the year ended August 31, 2020, employees of the District were covered by the District's insurance Plan (the "Plan"). Under this plan, the District and State (Teacher Retirement System of Texas) contribute approximately \$275 and \$75, respectively to the employee's premium. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement. There were no other liabilities associated with the Plan.

#### **L. Unemployment Compensation Pool**

During the year ended August 31, 2020, Tornillo ISD provided unemployment compensation to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The fund meets its quarterly obligations to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2020, the Fund anticipates that Tornillo ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is approved by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available at the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

#### **M. Worker's Compensation Program**

As required by law the District has acquired adequate worker's compensation insurance coverage contracted through Claims Administrative Services, Inc. The District has chosen to participate in a political subdivision risk pool, which means that the District shares its exposure with other school districts and public entities with similar employee populations. Currently, the District employs about 184 full-time and part-time employees. The District paid \$48,846 in worker's compensation premium for the plan year 2019-2020. This premium is considered sufficient by Claims Administrative Services, Inc. and no contingent liability is required to be reported. This total amount paid for worker's compensation costs is less than 1% of annual payroll.

#### P. Litigation

During the normal course of business the District is subject to various legal claims. As of August 31, 2020, management is not aware of any such claim which would have a material adverse effect on the financial statements.

#### Q. Other Significant Commitments and Contingencies

Commitments Under Leases - Tornillo Independent School District leases 282 acres of land in El Paso County, Texas from the University of Texas System Board of Regents. The term of this lease agreement was for a period of ten years which commenced October 1, 2006. The lease was renewed on June 24, 2015 for an additional ten year period commencing on October 1, 2016. This lease provides for rent of \$5,000 for the entire lease term. The land is only permitted to be used for the purpose of public education facilities and for necessary and desirable purposes incidental thereto, and for no other purpose. The District constructed a new high school facility on this land.

The District entered into a commercial lease with The University of Texas System Board of Regents for approximately 8.81 acres of land. The term of this lease agreement is for a period of ten years commenced August 11, 2015 through June 30, 2025. This lease provided for rent of \$4,000 for the entire lease term. The land is permitted to be used for the purpose of public education facilities and for purposes incidental thereto, and for no other purpose. The District uses the land as a baseball/softball dirt field.

#### Operating Leases Commitments

As of August 31, 2020 the District had entered into operating lease agreements for copy machines and postage equipment having an initial or remaining noncancellable lease term in excess of one year.

Commitments under operating (non-capitalized) lease agreements provide for minimum future rental payments estimated by management as of August 31, 2020, as follows:

| <u>Year Ending August 31,</u>   |                  |
|---------------------------------|------------------|
| 2021                            | <u>56,530</u>    |
| Total Potential Minimum Rentals | <u>\$ 56,530</u> |

Rental expenditures in fiscal year 2020 amounted to \$79,457.

Other Commitments - The District entered into an interlocal agreement with County of El Paso on December 14, 2009 for the improvement of facilities and services at Coyote Park playground and baseball park located within the bounds of the Tornillo Independent School District. The County will design, purchase, and install all playground equipment, canopies, basketball equipment and grass for the park and softball field. The District will be responsible for the management, maintenance and security of said park areas including maintenance of all County provided equipment. The agreement remains in effect until September 30, 2029.

The District entered into a second interlocal agreement with County of El Paso on January 23, 2019 for the improvements and maintenance of Coyote Park located within the bounds of the Tornillo Independent School District. The County will purchase and install sod and irrigation lay structure, sidewalk and hike and bike trail swings, benches and picnic shelters, solar lighting, landscaping, park equipment and parking. The District will be responsible for providing year-round maintenance of such premises, including maintenance of all improvements, manage and operate premises, operate and maintain landscaping, irrigation systems and equipment, and pay all electric, gas, and water utilities costs and expenses relating to operation and maintenance of premises. The agreement remains in effect until November 30, 2038.

Federal and State Funding - Tornillo Independent School District participates in numerous state and federal grant programs that are subject to audit by the Texas Education Agency and various Federal and/or State audit agencies. These programs have complex compliance requirements, and should State or Federal auditors discover areas of material noncompliance, those District funds may be subject to refund if so determined by administrative audit review. During the year, an investigation was underway regarding the possible misappropriation of federal grant funds. Subsequent to year end, the individual was sentenced and ordered to repay the District in restitution. In the opinion of administration, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

### **III. DETAILED NOTES ON ALL FUNDS (Continued)**

#### **R. Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board maintains insurance policies acquired from independent insurance carriers covering all structural property, automobiles, dishonesty, errors and omissions, boiler and machinery, personal property, and general liability. There have been no significant reductions in insurance coverage from prior years and settlements have not exceeded insurance coverage.

For the year ended August 31, 2020, Tornillo Independent School District carried insurance for building and contents in the amount of \$48,579,739 with deductibles ranging from \$25,000 to 2% per building, per occurrence, subject to \$250,000 minimum depending on category. Equipment, crime, general liability, and educator's legal liability had deductibles ranging from \$2,500 to \$25,000. Automobile physical damage had a deductible per collision of \$1,000 for auto and \$2,500 for buses. Automobile liability is a \$1,000,000 limit per occurrence. General liability is limited to \$1,000,000 per occurrence, and \$2,000,000 annual aggregate.

During the year ended August 31, 2020, Tornillo ISD participated in the TASB Risk Management Fund (the Fund) programs for auto liability and auto physical damage. The Fund was created and is operated under the provision of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop-loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2020, the Fund anticipates that Tornillo ISD has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

#### **S. Related Party Transactions**

From time to time, the District may enter into transactions with related parties through the normal course of business. If a Board member has a conflict of interest, proper documentation is completed and he/she is required to abstain from any discussion or voting regarding the matter.

Management is not aware of any material related party transactions that occurred during the 2019-2020 fiscal year.

#### T. Subsequent Events

In January 2020, the President of the United States declared a public health emergency for the COVID-19 pandemic. Subsequently, on March 13, 2020, school districts across the state of Texas were ordered to shut down and initiate distance learning through the remainder of the 2019-2020 school year. With the pandemic ongoing, the District had to begin its 2020-2021 academic year via distance learning as well. The Texas Education Agency awarded federal funds to the school districts under the CARES Act to help fund the additional costs incurred to provide distance learning and to prevent, prepare for, and respond to the pandemic. The Office of Management and Budget (OMB) released spending guidelines for the CARES Act in December 2020. Management is aware that certain costs charged to the program in fiscal year 2019-2020 could be questioned and deemed unallowable, which could result in refunds of federal revenue.

The full impact of the state allotment to the districts is not known at this time. The District is closely monitoring its budget and cash flows to address the needs of its students and personnel. The District is committed to continue fulfilling its mission to educate and empower students to thrive in their postsecondary journey by providing an innovative, nurturing culture of high expectations through collaboration of its stakeholders while maximizing resources.

On December 30, 2020, the District's Unlimited Tax Refunding Bonds, Series 2020 and Taxable Series 2020A were sold to refund existing debt in the amount of \$1,770,000 and \$2,520,000 respectively.

#### U. New Accounting Pronouncements

The District has not completed the process of evaluating the impact on its financial position that will result from adopting the following Governmental Accounting Standards Board (GASB) Statements:

- GASB No. 84, *Fiduciary Activities*, effective for fiscal years beginning after December 15, 2019. GASB No. 84 establishes criteria for identifying fiduciary activities of all state and local governments.
- GASB No. 87, *Leases*, effective for fiscal years beginning after June 15, 2021. GASB No. 87 requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases.
- GASB No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*, effective for fiscal years beginning after December 15, 2020. GASB No. 89 establishes accounting requirements for interest cost incurred before the end of a construction period.
- GASB No. 90, *Majority Equity Interests - and Amendment of GASB Statement No. 14 and No. 61*, effective for fiscal years beginning after December 15, 2019. GASB No. 90 modifies previous guidance for reporting a government's majority equity interest in legally separate organizations. This statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit.
- GASB No. 91, *Conduit Debt Obligations*, effective for periods beginning after December 15, 2019. GASB No. 91 requires issuers to disclose information about their conduit debt obligations.

### **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGET AND ACTUAL GENERAL FUND**

**FOR THE YEAR ENDED AUGUST 31, 2020**

---

#### **Budgets and Budgetary Accounting**

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General, National School Breakfast and Lunch Program, and Debt Service funds before the beginning of the fiscal year. For fiscal years beginning September 1, the Texas Education Code requires the budget to be adopted by August 31<sup>st</sup> of each year. The District's administration determines budgetary funding priorities and the budgets are prepared on the same basis of accounting that is used for reporting in accordance with generally accepted accounting principles. Final budget allocations are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget. The annual budget, which is prepared on the modified accrual basis of accounting, must be adopted by the Board at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts legally authorized appropriated budgets for the General, National School Breakfast and Lunch Program, and Debt Service funds. On August 28, 2019, the 2019-2020 budget was legally adopted by the Board.

The District's administration performs budget reviews during the year in which budget requirements are re-evaluated and revisions are recommended to the Board. The Board must approve amendments to the budget at the fund and functional expenditure categories or revenue object accounts as defined by the TEA. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Several amendments were necessary during the year. Significant budget amendments approved by the Board were related to training and COVID closures, the purchase of buses and vehicles, roof repairs, and the purchase of PA systems, building access control and intrusion alarm systems.

Expenditures may not legally exceed budgeted appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end.

The Budget and Actual - General Fund includes the District's Child Nutrition Program which is separately presented as Exhibit J-2.

During the fiscal year ended August 31, 2020, the District did not have any expenditures over appropriations on all required legally adopted budgets.

### ***Changes of Benefit Terms***

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

### ***Changes of Assumptions***

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas legislature approved funding for a 13<sup>th</sup> check. All eligible members retired as of December 31, 2018 will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

### ***Changes of Benefit Terms Since the Prior Measurement Period***

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

### ***Changes Since the Prior Actuarial Valuation***

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent as of August 31, 2019. This change increased the total OPEB liability.
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the total OPEB liability.
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the total OPEB liability.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumptions for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the total OPEB liability.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER  
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees  
Tornillo Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tornillo Independent School District as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise Tornillo Independent School District's basic financial statements, and have issued our report thereon dated January 22, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Tornillo Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tornillo Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Tornillo Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weakness. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Tornillo Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR  
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees  
Tornillo Independent School District

**Report on Compliance for Each Major Federal Program**

We have audited the Tornillo Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Tornillo Independent School District's major federal programs for the year ended August 31, 2020. Tornillo Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the Tornillo Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Tornillo Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Tornillo Independent School District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the Tornillo Independent School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

## Report on Internal Control over Compliance

Management of the Tornillo Independent School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Tornillo Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Tornillo Independent School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED AUGUST 31, 2020

---

### 1. BASIS OF ACCOUNTING

The District accounts for all awards under federal programs in the general fund or a special revenue fund in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or committed for specific purposes by a grantor. Federal and state financial assistance is generally accounted for in a special revenue fund. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount. For the year ended August 31, 2020, the District predominately accounted for federal grant funds in special revenue funds, with the exception of the National School Lunch and Breakfast Program, Child and Adult Care Food Program, and indirect costs, which were accounted for in the general fund.

These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due, and certain compensated absences, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. When grant funds are received before expenditures are made, they are recorded as unearned revenues until earned.

### 2. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "schedule") includes the federal activity of the District under programs of the federal government for the year ended August 31, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Period of performance - The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H. Period of Performance of Federal Funds, Part 3, OMB Compliance Supplement - August 2020.
