Independent Auditor's Report

To the Board of Trustees
Tornillo Independent School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Tornillo Independent School District (District) as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and the pension and other post employment benefits information on pages 9 through 18 and 75 through 88 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the required TEA schedules but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we the managers of Tornillo Independent School District, discuss and analyze the District's financial performance for the fiscal year ending August 31, 2023. Please read it in conjunction with the District's financial statements, which follow this section.

USING THIS REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities, which provide information about the activities of the District as a whole, present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund Financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about the activities for which the District acts solely as a trustee custodial of funds that benefits students and others.

The notes to the financial statement provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain additional information about the District's individual funds. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The primary purpose of the analysis of the District's overall financial condition and operations is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets, deferred outflows of resources, deferred inflow of resources and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are considered regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, non-financial factors should be considered, such as changes in the District's average daily attendance or the property tax base and the condition of the District's facilities.

Governmental activities - Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under Every Student Succeeds Act (ESSA) from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (i.e., campus activities).

All of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities which is reported in the Statement of Changes in Fiduciary Net Position. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

FINANCIAL HIGHLIGHTS

Total assets and total deferred outflows and resources of the Tornillo Independent School District exceeded its liabilities for fiscal year 2023 by \$11,470,374 (net position). Total Net Position of the District increased from \$10,896,361 in fiscal year 2022 to \$11,470,374 at year- end 2023. THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported combined fund balances of \$6.8 million which decreased from last year's total of \$8.2 million.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2023, the District had \$28,156,525 invested in a broad range of capital assets. Current year capital assets additions were perimeter rockwall and fencing at the Tornillo High School, Elementary canopy and turf, Elementary parking lot, and the gym to cafeteria conversion and cafeteria equipment.

Debt

At year-end, the District had \$14.6 million in bonds outstanding versus \$15.4 million last year. Debt Service requirements are normally due in February (Principal) and August (Interest) of every year. For the period ending August 31, 2023, the bond debt payments made were in the amount of \$1,298,130. The principal portion paid for the year was \$838,500 and interest paid was \$459,630.

GASB 96

The District implemented GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA). A SBITA is defined as a subscription-based information technology arrangement which establishes a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability ; provides the capitalization criteria for outlays other than subscription payment, including implementation costs and thus requiring note disclosures. The implementation of GASB Statement No. 96 did not result in an effect on the amounts reported in the financial statements or disclosures for the District. The District adopted a \$50,000 SBITA threshold. At the end of fiscal year 2023, there were no SBITAs that were over the threshold amount.

BUDGETARY HIGHLIGHTS

GASB Statement 34 required that we provide a discussion on significant variances between the district's original budget, final budget, and actual expenditures, and the impact of these variances on the District's/department's future liquidity.

General Fund. The FY 2023 budget was developed by balancing challenges of an increase in operational cost and maintaining an adequate fund balance reserve to ensure financial stability. The most significant fund for the District is the General Fund, funded primarily through state aide and property tax revenue.

Over the course of the year, the District approved several budget amendments. These amendments increased the function and included:

- Function 11 – Budget amendment in function 11 was to Teacher Incentive Allotment (\$35,396);
- Function 13- Budget amendment in function 13 reclassification of personnel, professional development costs and TRS on behalf payments (\$376,230);
- Function 21 – Budget amendment to cover short fall in salary and fringe benefits under-budgeting (\$9,690);
- Function 23 – TRS on behalf payments (\$6,911);
- Function 35 – Increase due to the awarded equipment grant and chain supply grant (\$132,904);
- Function 51- Increase due to assigned fund balance expenditures in security vestibules and remodeling of wall at the Junior High and Intermediate Schools (158,000)
- Function 52 – The allocation for a contract School Resource Officer, COPS grant match and TRS on behalf payments (\$124,396);
- Function 81 – Amendment related to various construction projects districtwide from assigned fund balance (1,522,000).

Budget amendments that increase or decrease the amount in a function are presented to the Tornillo ISD Board of Trustees for approval.

Exhibit G-1 of the financial statements includes a Statement of Revenues, Expenditures, and Changes in Fund Balance report that compares original and final budget amounts to actual amounts as of year-end close. The final column of the report lists the variance as compared to the final budget.

At the end of the fiscal year, the District's actual revenues of \$12,498,086 were in line with final projected revenues of \$12,931,907.

The District's expenditure as compared to the final budget include three negative variances.

- Function 13- Instructional Resources and Media Services - Underestimation for TRS on Behalf and fringe benefits throughout the year (\$3,135).

- Function 33 - Nursing- underestimation of TRS on Behalf costs (\$562).
- Function 35 – Child Nutrition-Year end inventory adjustments by (\$2,423)

Total functions within the approved budget did not exceed the total approved appropriation. The variance listed above will not impact future services or liquidity.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's student population continues to show a decrease over previous years. Due to the District's proximity to the Border, it is not unusual to see students return to their country of origin especially during the last couple of years in which the wave of violence has decreased in our neighboring city of Cd. Juarez, Mexico. In addition, several families have moved out of the District into neighboring school districts or have relocated to the Midland area seeking employment opportunities in the oil industry. With historic enrollment trends in mind, the Board of Trustees and Administration continue to use a conservative budget approach to ensure next year's budget is balanced. Other areas such as staffing ratios and attendance projections are considered during the budget development process.

Fiscal year 2023-2024 began with District facing additional challenges in the labor market, supply chain, and inflation due to the post pandemic normal. Overall, labor force and the district's location have presented a challenge in filling vacancies for instructional, administrative, and auxiliary staff. Retention stipends have been made available to keep and attract employees. Additionally, the District has offered a 4% teacher increase and 2% for all employees. The financial condition of the District continues to be strong.

Our Board adopts its budget using conservative Average Daily Attendance estimates and Assessed taxable property values. For 2023-2024 the district lowered its local Maintenance and Operations tax rate to \$0.6688 due to state tax rate compression after passing Senate Bill 2. Increasing homestead exemption from \$40,000 to \$100,000 and tax rate compression shifted funding from local to state share from which the District currently qualifies for approximately 93% funding by the state foundation and with the remaining 7% satisfied through the property taxes. It has long been the Board's objective to maintain a significant fund balance to make new construction and/or renovations to existing structures, should the need arise.

The Interest and Sinking tax rate will be maintained at the rate of \$0.4689 during the current year in order to meet the debt obligations. The Maintenance and Operation tax rate has decreased due to increase of property values and reduced tax rate as required by Senate Bill 2 tax compression to \$0.6688 per every hundredth valuation for a combined tax rate of \$1.1377.

The District continues to apply and qualify for various Federal Program Grants that assist in the enhancement of education for students identified with special needs. These funds constitute a significant portion of our operating budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2023

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	6,844,878
1 Capital assets and Right-to-Use Lease Assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$45,613,156 and the accumulated depreciation/amortization was (\$18,363,413). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation and amortization) and long-term debt in the governmental activities is to increase net position.		11,050,162
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the capital outlays and debt principal payments is to increase net position. Similarly, the principal payments on Right-to-Use Lease Assets are not expenses, rather they are decreases in the Right-to-Use Lease Liabilities. These payments must be reclassified and shown as reductions to these liabilities increasing Net Position.		3,043,087
3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$2,543,181, a deferred resource inflow in the amount of \$461,401, and a net pension liability in the amount of \$5,148,406. This resulted in a decrease in net position.		(3,066,626)
4 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$1,558,168, a deferred resource inflow in the amount of \$4,403,452, and a net OPEB liability in the amount of \$2,489,085. This resulted in a decrease in net position.		(5,334,369)
5 The current year depreciation and amortization expense increases accumulated depreciation and amortization. The net effect of the current year's depreciation and amortization is to decrease net position.		(1,260,935)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.		194,177

Total Net Change in Fund Balances - Governmental Funds	\$	(1,411,719)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the current year capital outlays and debt principal payments is to decrease the change net position. Similarly, current year principal payments on Right-to-Use Leases are also reclassified as reductions to the Right-To-Use Lease Liability which will results in an increase in the change in Net Position.		3,082,427
Depreciation and amortization is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation and amortization is to decrease the change in net position.		(1,260,935)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase the change in net position.		5,087
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$453,368. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$404,437. Finally, the proportionate share of the TRS pension expense on the plan as whole had to be recorded. The net pension expense decreased the change in net position by \$271,402. The net result is a decrease in the change in net position.		(222,471)
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$90,702. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in the change in net position totaling \$86,850. Finally, the proportionate share of the TRS OPEB expense on the plan as whole had to be recorded. The net OPEB expense increased the change in net position by \$377,772. The net result is an increase in the change in net position.		381,624

TORNILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

AUGUST 31, 2023

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tornillo Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. The Board also has primary accountability for fiscal matters; therefore, the District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB").

The decisions to include or exclude a potential component unit in the reporting entity were made by applying standards contained in GAAP. The primary standard for including or excluding a potential component unit is whether it is financially dependent on the reporting entity. The fiscal dependency criterion also requires that a financial benefit or burden relationship be present in order for a potential component unit to be included in the financial reporting entity. Other manifestations of the ability to exercise oversight responsibility include, but certainly are not limited to, the selection of the governing authority, the designation of management, the ability to materially influence operations, and accountability for fiscal matters. The second standard used to evaluate potential component units is the scope of public services. Application of this standard entails considering whether the activity benefits the District or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. The third standard involved in evaluating whether potential component units are included or excluded from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities.

Based upon the application of these criteria, there are no component units to be included within the reporting entity.

B. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, charges to school districts for services, state funds, grants, and other intergovernmental revenues.

TORNILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

AUGUST 31, 2023

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement category represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. For pensions and OPEB, these outflows result from pension plan and OPEB contributions made after the measurement date of the net pension and OPEB liabilities, net differences between projected and actual investment earnings, changes in actuarial assumptions; differences between expected and actual experiences; and changes in the District's proportionate share of net pension and OPEB liabilities. The deferred outflows of resources related to pensions and OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension and OPEB liabilities in the next fiscal year. The other pension and OPEB related deferred outflows will be amortized over a systematic and rational method over a closed period.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement category represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. For pensions and OPEB, these inflows result from net differences between projected and actual investment earnings, changes in actuarial assumptions; differences between expected and actual experiences; and changes in the District's proportionate share of net pension and OPEB liabilities. These deferred inflows will be amortized over a systematic and rational method over a closed period.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflow of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. The Plan's fiduciary net position has been determined on the same basis as that used by the Plan. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

TORNILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

AUGUST 31, 2023

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs through program revenues. The “Charges for Services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Direct expenses are those that are clearly identifiable with a specific function or segment. Examples of program revenues include school lunch charges, and athletic and extracurricular/cocurricular activities, etc. The “Grants and Contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District’s functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to or due from on the government-wide Statement of Net Position.

The fund financial statements report on the financial condition and results of operations for two fund categories - governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds as major and reports their financial condition and results of operations in a separate column.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, deferred inflows of resources, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, leases, and subscription-based information technology arrangements (SBITAs) which are recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues, other than property tax revenue, available if they are collectible within one year after year end. School Health and Related Services (SHARS) revenue is recognized as revenue upon receipt of the reimbursements during the fiscal year and when the annual Cost Report is acknowledged by the Texas Health and Human Service Commission.

Revenues from local sources consist primarily of property taxes and related penalties and interest. Revenues received from the State are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. The District considers property tax revenue available if it will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Unavailable revenue from property taxes arises only under the modified accrual basis of accounting. The governmental funds report this unavailable revenue as a deferred inflow of resources, which is recognized as revenue in the period that the amounts become available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. Within this measurement focus, assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into investment in capital assets net of related debt, restricted, and unrestricted.

D. Fund Accounting

The District reports the following major governmental fund:

1. General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Additionally, the District reports the following fund types:

GOVERNMENTAL FUNDS:

1. Special Revenue Funds - The District accounts for resources restricted for specific purposes by a grantor in a special revenue fund. Most federal and state financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances are returned to the grantor at the close of specified project periods.
2. Debt Service Fund - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. Capital Projects Fund - The proceeds from long-term debt financing will be used to construct, renovate, acquire and equip school buildings in the District and pay any associated costs.
4. Permanent Funds - Account for donations for which the donor has stipulated that the principal may not be expended and where the income may only be used for purposes that support the District's program. The District has no permanent funds.

PROPRIETARY FUNDS:

5. Enterprise Funds - The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund. The District has no enterprise funds.
6. Internal Service Funds - These funds are used to account for financing of goods or services provided by one department to other departments of the District on a cost-reimbursement basis. The District has no internal service funds.

FIDUCIARY FUNDS:

7. Private Purpose Trust Funds - This fund is used to report all fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds or investment trust funds and are held in a trust. The District has no private purpose trust funds.
8. Pension (and Other Employee Benefit) Trust Funds - These funds are used to report fiduciary activities for pension plans and OPEB plans that are administered through trusts and other employee benefit plans for which resources are held in a trust. The District has no pension trust funds.
9. Investment Trust Fund - This fund is used to report fiduciary activities from the external position of investments pools and individual investment accounts that are held in a trust. The District has no investment trust funds.

10. Custodial Funds - These funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private purpose trust funds. The District's custodial fund is the Student Activity Fund and consists of funds that are property of students and others and cannot be used by the District in its operations.

E. Other Accounting Policies

1. For the purposes of the statement of cash flows for proprietary and similar fund-types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. Investments with an original maturity greater than one year from date of purchase are stated at fair value based on quoted market prices as of year end, except for nonparticipating interest-earning investment contracts which are reported at cost. Investments with an original maturity of less than one year are reported at amortized cost, which approximates fair value.
3. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.
4. The District reports inventories of supplies using the first in first out (FIFO) method and include food and non-food supplies, consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the Texas Department of Agriculture. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Agriculture and recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.
5. Prepaid items on the balance sheet are accounted for using the consumption method and are recognized as expenditures over the periods in which the service is provided.
6. The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. Management asserts that the District is in substantial compliance with the requirements of the Act and with local policies.
8. Additional policies and contractual provisions governing deposits and investments for the District are specified below:

Credit Risk:

Deposits - The District is not exposed to credit risk.

Temporary Investments - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations, the District limits investments in public funds investment pools to those that have received top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2023, the District's investments in Lone Star investment pool was rated AAAM by Standard & Poors.

Custodial Credit Risk:

Deposits - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. Since the District complies with this law, it has minimal custodial credit risk for deposits.

Temporary Investments - To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party, the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. This includes securities in securities lending transactions. Investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book-entry form.

TORNILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Credit Risk:

Deposits - The District is not exposed to concentration of credit risk.

Temporary Investments - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District's policy states that the portfolio must be diversified. Concentration of Credit Risk is not applicable to investment pools since the purpose of these pools is to diversify the District's investment portfolio.

Interest Rate Risk:

Deposits - The District is not exposed to interest rate risk.

Temporary Investments - To limit the risk that changes in interest rates will adversely affect the fair value of the investments, the District requires its investment portfolio to have maturities of less than one year on a weighted average maturity (WAM) basis.

Foreign Currency Risk:

Deposits - The District attempts to limit the risk that changes in exchange rates will adversely affect a deposit by avoiding deposits denominated in a foreign currency.

Temporary Investments - The District attempts to limit the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding investment pools which are denominated in a foreign currency.

9. In the government-wide financial statements, long-term debt, right-to-use lease liabilities, subscription-based information technology arrangements (SBITAs), and other long-term obligations are reported as liabilities in the Statement of Net Position. When applicable, premiums and discounts are presented as a component of liabilities while deferred losses on refundings are presented as deferred outflows of resources. Both items are deferred and amortized over the life of the related debt using the straight line method. Long-term debt is reported net of the applicable bond premium or discount. The right-to-use lease and SBITA liability is calculated as the present value of the reasonably certain expected payments to be made over the term of the lease or the SBITA and the interest in the lease or SBITA payment is recorded as an expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs and new right-to-use lease arrangements and new SBITAs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. For new right-to-use leases and SBITAs, the initial measurement is reported in governmental fund types as an other financing source during the current period. Payments are reported as principal and interest payments during the reporting period in the fund financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- 10. It is the District’s policy to permit some employees to accumulate earned but unused vacation, sick leave, and local days. There is no liability for unpaid accumulated vacation, sick leave, and local days since the District does not have a policy to pay any amounts when employees separate from service with the District.

- 11. Capital assets, which include land, buildings and improvements, furniture and equipment, library books and media, right-to-use lease assets, and subscription-based information technology arrangements (SBITAs), are reported in the government-wide financial statements. Capital assets, excluding SBITAs, are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life (or lease term) in excess of one year. The District capitalizes SBITAs with a present value that is equal to or greater than \$50,000 and an estimated useful life (SBITA term) in excess of one year. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of receipt.

All individual federally funded assets with a cost of \$5,000 or more shall be capitalized in accordance with the aforementioned policies.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment, and library books and media of the District are depreciated using the straight line method over the following estimated useful lives.

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	20 to 50
Furniture & Equipment	5 to 15
Library Books & Media	5

Right-to-use assets are amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset. When a lease contains a purchase option the District chooses to exercise, the lease asset is amortized over the useful life of the underlying asset. The amortization expense is combined with depreciation expense for financial reporting purposes.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Net Position on the Statement of Net Position include the following:

Net investment in capital assets - this component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt will be included in this component of net position.

Restricted for federal and state programs - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets, which are restricted by federal and state granting agencies.

Restricted for Debt Service - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. The assets arise from bond issuances which have constraints placed on them by the bond covenants for the purpose of future debt service payments.

Restricted for Campus Activities - this component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources, if applicable, related to those assets, which are restricted transactions related to a principal's activity fund.

Unrestricted - this component of net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District considers restricted resources to have been spent.

13. The District reports the following fund balance categories which describe the nature and the relative strength of the spending constraints:

Nonspendable Fund Balance - Represents amounts that are not in spendable form or are legally or contractually required to be maintained intact, such as inventories.

Restricted Fund Balance - Represents amounts that are restricted to specific purposes, with constraints placed on the use of resources by (a) external creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or (c) enabling legislation.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Committed Fund Balance - Represents amounts that are restricted for purposes which the Board of Trustees, the District's highest level of decision-making authority, has designated their use. These amounts are committed through a formal resolution, requiring funds to be used only for specific purposes. These amounts can only be re-allocated by the same formal action that was taken to originally commit those amounts. The Board of Trustees shall take action to commit funds for a specific purpose prior to the end of the fiscal year.

Assigned Fund Balance - Represents amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The governing body has delegated authority to the Superintendent or designated managers. Should the Board opt not to commit any balances, it will implicitly defer to the designees to make appropriate assignments.

Unassigned Fund Balance - Represents amounts that are available for any purpose and have not been restricted, committed, or assigned for specific purposes. Positive amounts are reported only in the general fund.

The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a formal resolution. Assigned fund balance is established by the Superintendent or designated managers through adoption or amendment of the budget as intended for a specific purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes of which amounts in any of those unrestricted fund balance classifications could be used, unless the Board of Trustees or designees have provided otherwise in their commitment or assignment actions.

14. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a state-wide data base for policy development and funding plans.
15. The District receives substantial amounts of funding from special revenue sources. The majority of this money is cost reimbursement to the District by the federal government or Texas Education Agency. The portion of revenue allowable for indirect cost is credited as revenue to the General Fund and as a reduction to revenue in the Special Revenue Fund, as appropriate. The indirect cost revenue is fully allocated to function 41, General Administration, in the Government-wide Statement of Activities as operating grants and contributions.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

16. In accordance with the Resource Guide, the District has adopted and installed an accounting system which meets as least the minimum requirements presented by the Texas State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Resource Guide. Mandatory codes are recorded in the order provided in the Resource Guide.
17. Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the District's fiscal year.
18. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

- F. The District implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement (1) defines a subscription-based information technology arrangement (SBITA); (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payment, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The District did not have any qualifying arrangements that met the threshold discussed in the capital asset policy in Note I. E.11.

The District implemented GASB Statement No. 99, *Omnibus 2022*. This statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified in previous GASB statements, and (2) adding guidance on accounting and financial reporting for financial guarantees.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bond payable, right-to-use lease liabilities, SBITA liabilities, and the District's proportionate share of the net pension and OPEB liabilities are not due and payable in the current period and are not reported as liabilities in the funds.

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position.

Another element of the reconciliation on Exhibit C-4 described as "various other reclassifications and eliminations" is necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This includes recognizing property tax revenue considered available, recognizing accruals of interest on long-term debt, and recognizing internal service fund activity. In addition, certain pension and OPEB expenditures were de-expended, and the District recorded their proportionate share of the pension and OPEB expense. These adjustments are necessary to convert from the modified accrual basis of accounting to the full accrual basis of accounting.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

At August 31, 2023, the carrying amount of the District’s deposits (cash, and interest-bearing savings accounts including fiduciary funds cash) was \$170,705 and the bank balance was \$394,284. The District’s cash deposits at August 31, 2023 were entirely covered by FDIC insurance or by pledged collateral held by the District’s agent bank in the District’s name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: WestStar Bank.
- b. The market value of bonds and securities pledged as of the date of the highest combined balance on deposit was \$1,555,235.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$1,083,021 and occurred during the month of February 2023.
- d. Total amount of FDIC coverage at the time of the largest combined balance was \$250,000.

Due to the immediate availability of the funds, the District’s temporary investments are presented as cash and cash equivalents as of August 31, 2023, and include the following:

	<u>Account Balance</u>
Lone Star: Corporate and Government Overnight Fund (amortized cost)	<u>\$ 6,151,611</u>
	<u><u>\$ 6,151,611</u></u>

The Lone Star Investment Pool is a member owned, member-governed public funds investment pool. It is managed by an eleven member Board of Trustees and the Board is authorized to adopt and maintain bylaws. There is also an Advisory Board composed of participants that gathers and exchanges information from participants relating to the operation of the Pool. Each fund within the Pool has received the rating of AAAm, from Standard & Poor’s as required by the Public Fund’s Investment Act. Lone Star Investment Pool issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by calling Lone Star at 1-800-558-8875. Management is not aware of the presence of any limitations or restrictions on withdrawals such as redemption notice periods, maximum transaction amounts, and the qualifying external investment pool’s authority to impose liquidity fees or redemption gates.

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions at August 31, 2023. For the year ended August 31, 2023, the District paid \$459,630 in interest costs related to bonds payable.

Rebatable Arbitrage - The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least five years. Arbitrage is evaluated and estimated on an annual basis by a third party. The company has estimated no liability for the District as of August 31, 2023.

I. Right-to-Use Lease Liability

In May 2021, the District entered into a lease agreement as lessee to lease office equipment for a term of five years with quarterly payments of \$316. Management utilized an interest rate of 3.6% to calculate the net present value of the lease. The right-to-use lease asset is being amortized over the term of the lease using the straight-line method. During the fiscal year ending August 31, 2023, total principal paid by the District was \$1,218 and total interest paid by the District was \$47 related to this lease agreement.

Debt service requirements for the right-to-use lease are as follows:

J. Defined Benefit Pension Plan

Plan Description: The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension’s Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position: Detailed information about the Teacher Retirement System’s fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at <https://www.trs.texas.gov/TRS%20Documents/acfr-2022.pdf> by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided: TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

State law requires the plan to be actuarially sound in order for the legislature to consider a benefit enhancement, such as a supplemental payment to the retirees. The pension became actuarially sound in May 2019 when the 86th Texas legislature approved the TRS Pension Reform Bill (SB12) that provided gradual contribution increases from the state, participating employers and active employees for the fiscal years 2019 through 2024.

Contributions: Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System’s actuary.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

Contributions Required and Made

2023 Employer Contributions	\$	453,368
2023 Member Contributions		757,876
2022 Plan Year NECE On-Behalf Contributions (State)		400,675

Contributors to the plan include active members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies, including TRS. In each respective role, the State contributes to the plan in accordance with State Statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.

Included in the employer contributions amount listed above for fiscal year 2023, the District paid \$16,244 in retiree surcharges and \$124,694 for the Public Education Employer Contribution. These two additional surcharges an employer is subject to are summarized as follows:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- All public schools, charter schools and regional education service centers must contribute 1.7 percent of the member's salary beginning in fiscal year 2022, gradually increasing to 2 percent in fiscal year 2025.

Actuarial Assumptions: The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the total pension liability to August 31, 2022. The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System’s actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three year period ending August 31, 2021 and were adopted in July 2022. The following table discloses the assumptions that were applied to this measurement period:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Mortality Assumption	The active mortality rates were based on the PUB (2010), Amount-Weighted, Below-Median Income, Teacher, Male and Female tables, with a 2-year set forward for male. The rates are projected on a fully generational basis by the long-term rates of scale UMP 2021 to account for future mortality improvements. The post-retirement mortality rates were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates are projected on a fully generational basis by Scale UMP 2021, but with immediate convergence, to account for future mortality improvements.
Long-term expected Investment Rate of Return	7.00%
Municipal Bond Rate as of August 2022	3.91%. - The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-Year Municipal GO AA Index”
Last year ending August 31 in Projection Period (100 years)	2121
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Ad hoc post-employment benefit changes	None

III. DETAILED NOTES ON ALL FUNDS (Continued)

The actuarial methods and assumption used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021. For a full description of these assumptions please see the actuarial valuation report dated November 12, 2021.

Discount Rate: A single discount rate used to measure the total pension liability was 7.00 percent. There was a decrease of 0.25 percent in the discount rate since the previous year. The single discount rate was based on the expected rate of return on pension plan investments of 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00 percent and was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate Sensitivity Analysis: The following table presents the Net Pension Liability of the plan using the discount rate of 7.00 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease 6.00%	Current Single Discount Rate 7.00%	1% Increase 8.00%
District's proportionate share of the net pension liability	\$ 8,008,968	\$ 5,148,406	\$ 2,829,787

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At August 31, 2023, the District reported a liability of \$5,148,406 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

The District's proportionate share of the collective net pension liability	\$ 5,148,406
State's proportionate share that is associated with the District	<u>5,097,630</u>
Total	<u><u>\$ 10,246,036</u></u>

The net pension liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 through August 31, 2022.

At August 31, 2022 the employer's proportion of the collective net pension liability was 0.0086721060% which was an increase of 0.0012244498% from its proportion measured as of August 31, 2021.

Changes since the Prior Actuarial Valuation: The actuarial assumptions and methods have been modified since the determination of the prior year's Net Pension Liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was lowering of the discount rate from 7.25 percent to 7.00 percent.

There were no changes in benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2023, the District recognized pension expense of \$487,276 and revenue of \$487,276 for support provided by the State.

The amount of pension expense recognized by the District in the reporting period was \$1,163,115.

III. DETAILED NOTES ON ALL FUNDS (Continued)

At August 31, 2023, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 74,651	\$ 112,245
Changes in actuarial assumptions	959,316	239,088

District contributions to TRS subsequent to the measurement date	453,368	-
Total	\$ 2,543,181	\$ 461,401

The \$453,368 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending August 31, 2024.

The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

K. Defined Other Post-Employment Benefit Plan

Plan Description: The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position: Detail information about the TRS-Care’s fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at <https://www.trs.texas.gov/TRS Documents/acfr-2022.pdf>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided: TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

III. DETAILED NOTES ON ALL FUNDS (Continued)

The premium rates for retirees are reflected in the following table:

TRS-Care Monthly Plan Premium Rates				
	Medicare		Non-Medicare	
Retiree or Surviving Spouse	\$	135	\$	200
Retiree and Spouse		529		689
Retiree or Surviving Spouse and Children		468		408
Retiree and Family		1,020		999

Contributions: Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based on active employee compensation. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25 percent of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is 0.65 percent of salary. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

<u>Contributions Rates</u>	<u>2022</u>	<u>2023</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
2023 Employer Contributions	\$ 90,702	
2023 Member Contributions	61,579	
2022 Plan Year NECE On-behalf Contributions (State)	104,153	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS-Care OPEB program. When employers hire a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree. During the year ended June 30, 2023, the District did not employ TRS retirees and therefore did not pay any surcharge amounts to TRS-Care.

III. DETAILED NOTES ON ALL FUNDS (Continued)

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$83 million in fiscal year 2022 from the Federal Rescue Plan Act (ARPA) to help defray Covid-19-related health costs during fiscal year 2022.

Actuarial Assumptions: The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2022. The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2021 pension actuarial valuation that was rolled forward to August 31, 2022:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability Incidence	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	3.91% as of August 31, 2022
Salary Increases	3.05% to 9.05%, including inflation
Demographic Assumptions	The rates of mortality, retirement, termination and disability incidence are identical to the assumptions used to value the pension liabilities of TRS. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.
Mortality Assumption	The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2018.

III. DETAILED NOTES ON ALL FUNDS (Continued)

Health Care Trend Rates	Initial medical trend rates of 8.25% for Medicare retirees and 7.25% for non-Medicare retirees. Initial prescription drug trend rate of 8.25% for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.25 over a period of 13 years.
Election Rates	Normal Retirement: 62% participation prior to age 65 and 25% participation after age 65; 30% of pre-65 retirees are assumed to discontinue coverage at age 65
Aging Factors	Based on plan specific experience.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Ad hoc post-employment benefit changes	None
Other Information:	
Notes	Assumption changes include a discount rate change from 1.95% as of August 31, 2021 to 3.91% as of August 31, 2022, lower participation rates, and updates to the health care trend assumptions.

Discount Rate: A single discount rate of 3.91 percent was used to measure the Total OPEB Liability. There was an increase of 1.96 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to *not be able* to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2022 using the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax exempt municipal bonds.

Discount Rate Sensitivity Analysis: The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used in measuring the Net OPEB Liability.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs: At August 31, 2023, the District reported a liability of \$2,489,085 for its proportionate share of the TRS-Care's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

The District's proportionate share of the collective Net OPEB Liability	\$ 2,489,085
State's proportionate share that is associated with the District	3,036,293
Total	\$ 5,525,378

The Net OPEB Liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the Total OPEB liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 through August 31, 2022.

At August 31, 2022 the employer's proportion of the collective Net OPEB Liability was 0.0103954409%, which was an increase of 0.0011996515% from its proportion measured as of August 31, 2021.

III. DETAILED NOTES ON ALL FUNDS (Continued)

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the Total OPEB Liability.

There were no changes in benefit terms that affected measurement of the Total OPEB liability during the measurement period.

For the year ended August 31, 2023, the District recognized OPEB expense of \$(430,874) and revenue of \$(430,874) for support provided by the State.

The amount of OPEB expense recognized by the District in the reporting period was \$(721,796).

At August 31, 2023, the District reported its proportionate share of the TRS-Care’s deferred outflows of resources and deferred inflows of resources related to other post-employment benefits (OPEB) from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 138,384	\$ 2,073,631
Changes in actuarial assumptions	379,137	1,729,268
Difference between projected and actual investment earnings	7,414	-
Changes in proportion and difference between the District’s contributions and the proportionate share of contributions	942,531	600,553
Contributions paid to TRS-Care subsequent to the measurement date	90,702	-
Total	\$ 1,558,168	\$ 4,403,452

The \$90,702 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended August 31, 2024.

	Beginning Balance	Additions	Reductions	Ending Balance
Net OPEB Liability	\$ 3,547,227	\$ -	\$ 1,058,142	\$ 2,489,085

Payable to the OPEB Plan: At August 31, 2023, the District reported a payable of \$11,037 to the OPEB plan for the outstanding amount of contractually required contributions related to past service costs. Member contributions included in this payable were \$5,476.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. Medicare Part D contributions made on behalf of the District’s employees for the year ended August 31, 2023, 2022 and 2021 were \$52,810, \$35,395, and \$39,901, respectively. These amounts are recorded as equal revenues and expenditures in the governmental fund financial statements of the District.

L. Health Care Coverage

During the year ended August 31, 2023, Tornillo Independent School District participated in the TRS - Active Care Health Insurance Program. During the year ended August 31, 2023, employees of the District were covered by the District's insurance Plan (the "Plan"). Under this plan, the District and State (Teacher Retirement System of Texas) contribute approximately \$275 and \$75, respectively to the employee's premium. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement. There were no other liabilities associated with the Plan.

M. Unemployment Compensation Pool

During the year ended August 31, 2023, Tornillo ISD provided unemployment compensation to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The fund meets its quarterly obligations to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2023, the Fund anticipates that Tornillo ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is approved by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available at the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

N. Worker's Compensation Program

As required by law the District has acquired adequate worker's compensation insurance coverage contracted through Claims Administrative Services, Inc. The District has chosen to participate in a political subdivision risk pool, which means that the District shares its exposure with other school districts and public entities with similar employee populations. Currently, the District employs about 170 full-time and part-time employees. The District paid \$58,944 in worker's compensation premium for the plan year 2022-2023. This premium is considered sufficient by Claims Administrative Services, Inc. and no contingent liability is required to be reported. This total amount paid for worker's compensation costs is less than 1% of annual payroll.

Total	\$ 6,539,578	\$ 305,300	\$ 6,844,878

As discussed in Note P, as of August 31, 2023, the District has \$45,710 of encumbrances of operating funds that rolled over into the next fiscal year.

P. Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary integration for the general fund, special revenue funds, and capital projects funds. Encumbrances represent commitments related to contracts not yet performed and are used to control expenditures for the year and to enhance cash management. The encumbrance account does not represent an expenditure for the period, only a commitment to expend resources. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year end, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. At August 31, 2023, certain amounts which were previously restricted or assigned for specific purposes have been encumbered in the governmental funds as follows:

Total	\$ 1,320,251	\$ 569,428	\$ 1,889,679

R. School Health and Related Services (SHARS)

SHARS is a Medicaid financing program and allows local school districts to obtain Medicaid reimbursement for certain health-related services provided to student in special education. Since SHARS settle-up amounts are usually calculated and received in arrears, the District does not have adequate information to make an estimate of the receivable related to the current year on the government wide financial statements. However, the receivable and related revenues are recorded in the fiscal year the preliminary settle-up amounts are available, which is usually one year in arrears.

SHARS revenue recorded in the current year period related to prior year's settle-up amounts was \$66,959. As of August 31, 2023, the SHARS receivable was \$42,119 and is included in "Due from Other Governments."

S. Litigation

During the normal course of business the District is subject to various legal claims. As of August 31, 2023, management is not aware of any such claim which would have a material adverse effect on the financial statements.

T. Other Significant Commitments and Contingencies

Land Commitments - Tornillo Independent School District leases 282 acres of land in El Paso County, Texas from the University of Texas System Board of Regents. The term of this lease agreement was for a period of ten years which commenced October 1, 2006. The lease was renewed on June 24, 2015 for an additional ten year period commencing on October 1, 2016. This lease provides for rent of \$5,000 for the entire lease term. The land is only permitted to be used for the purpose of public education facilities and for necessary and desirable purposes incidental thereto, and for no other purpose. The District constructed a new high school facility on this land.

The District entered into a commercial lease with The University of Texas System Board of Regents for approximately 8.81 acres of land. The term of this lease agreement is for a period of ten years commenced August 11, 2015 through June 30, 2025. This lease provided for rent of \$4,000 for the entire lease term. The land is permitted to be used for the purpose of public education facilities and for purposes incidental thereto, and for no other purpose. The District uses the land as a baseball/softball dirt field.

Other Commitments - The District entered into an interlocal agreement with County of El Paso on December 14, 2009 for the improvement of facilities and services at Coyote Park playground and baseball park located within the bounds of the Tornillo Independent School District. The County will design, purchase, and install all playground equipment, canopies, basketball equipment and grass for the park and softball field. The District will be responsible for the management, maintenance and security of said park areas including maintenance of all County provided equipment. The agreement remains in effect until September 30, 2029.

The District entered into a second interlocal agreement with County of El Paso on January 23, 2019 for the improvements and maintenance of Coyote Park located within the bounds of the Tornillo Independent School District. The County will purchase and install sod and irrigation lay structure, sidewalk and hike and bike trail swings, benches and picnic shelters, solar lighting, landscaping, park equipment and parking. The District will be responsible for providing year-round maintenance of such premises, including maintenance of all improvements, manage and operate premises, operate and maintain landscaping, irrigation systems and equipment, and pay all electric, gas, and water utilities costs and expenses relating to operation and maintenance of premises. The agreement remains in effect until November 30, 2038.

Federal and State Funding - Tornillo Independent School District participates in numerous state and federal grant programs that are subject to audit by the Texas Education Agency and various Federal and/or State audit agencies. These programs have complex compliance requirements, and should State or Federal auditors discover areas of material noncompliance, those District funds may be subject to refund if so determined by administrative audit review.

In the opinion of administration, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

U. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board maintains insurance policies acquired from independent insurance carriers covering all structural property, automobiles, dishonesty, errors and omissions, boiler and machinery, personal property, and general liability. There have been no significant reductions in insurance coverage from prior years and settlements have not exceeded insurance coverage.

For the year ended August 31, 2023, Tornillo Independent School District carried insurance for building and contents in the amount of \$65,783,069 with deductibles ranging from \$10,000 to \$250,000, per occurrence. Equipment, general liability, educator's legal liability, and cyber suite coverage had deductibles ranging from \$1,000 to \$25,000. Automobile physical damage had a deductible of \$1,000. Automobile liability had a deductible of \$1,000 with a \$1,000,000 limit per accident.

V. Related Party Transactions

From time to time, the District may enter into transactions with related parties through the normal course of business. If a Board member has a conflict of interest, proper documentation is completed and he/she is required to abstain from any discussion or voting regarding the matter. Management is not aware of any material related party transactions that occurred during the 2022-2023 fiscal year.

W. Other Retirement Plans

The District has established a 457 Deferred Compensation Plan and Tax-sheltered Annuity 403(b) Plan. All regular full-time employees are eligible to participate in these Plans immediately upon becoming employed by the District. As of August 31, 2023, the District had 25 employees participating in these Plans. Employee contributions to the Plans totaled \$52,410.

The District does not contribute to any of these Plans and does not hold the assets in a trustee capacity. Management does not have control over the funds nor can they access the funds, and therefore believes the District does not have fiduciary accountability for the Plans. As such, the Plan assets are not included in a trust fund in the District's financial statements.

X. New Accounting Pronouncements

The District has not completed the process of evaluating the impact on its financial position that will result from adopting the following Governmental Accounting Standards Board (GASB) Statements:

- GASB No. 100, *Accounting Changes and Error Corrections - an amendment of GASB No. 62*, effective for fiscal years beginning after June 15, 2023. The primary objective of this statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections, to provide more understandable, reliable, relevant, consistent, and comparable information for making or assessing accountability.
- GASB No. 101, *Compensated Absences*, effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGET AND ACTUAL GENERAL FUND

FOR THE YEAR ENDED AUGUST 31, 2023

Budgets and Budgetary Control

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General Fund, Child Nutrition Program, and Debt Service Funds before the beginning of the fiscal year. For fiscal years beginning September 1, the Texas Education Code requires the budget to be adopted by August 31st of each year. The District's administration determines budgetary funding priorities and the budgets are prepared on the same basis of accounting that is used for reporting in accordance with generally accepted accounting principles. Final budget allocations are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget. The annual budget, which is prepared on the modified accrual basis of accounting, must be adopted by the Board at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts legally authorized appropriated budgets for the General Fund, Child Nutrition Program, and Debt Service Funds. On August 30, 2022, the 2022-2023 budget was legally adopted by the Board.

The District's administration performs budget reviews during the year in which budget requirements are re-evaluated and revisions are recommended to the Board. The Board must approve amendments to the budget at the fund and functional expenditure categories or revenue object accounts as defined by the TEA. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Several amendments were necessary during the year.

Expenditures may not legally exceed budgeted appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end.

Budgetary Basis of Accounting

The District's budget is prepared on a modified accrual basis of accounting.

The Budget and Actual - General Fund includes the District's Child Nutrition Program which is separately presented as Exhibit J-2.

Excess Expenditures Over Appropriations

Exhibit G-1 presents a small unfavorable budget variance in function 13 - Curriculum and Instructional Staff Development and in function 33 - Health Services due to underestimation of TRS on behalf and fringe benefits and in function 35 - Food Service due to underestimation of inventory adjustment at year end. Overall, the general fund budget reported a favorable budget variance of \$835,777.

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of Assumptions

The Board adopted new assumptions on July 15, 2022 based on recommendations from the experience study for the period ending August 31, 2021. The primary assumption change was lowering of the discount rate from 7.25 percent to 7.00 percent. Please see the experience study report for a detailed list of changes with the rationale for each. NOTES TO REQUIRED SUPPLEMENTARY OPEB INFORMATION

TEACHER RETIREMENT SYSTEM OF TEXAS

FOR THE YEAR ENDED AUGUST 31, 2023

Changes of Benefit Terms Since the Prior Measurement Period

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the total OPEB liability.
- The participation rate for pre-65 retirees was lowered from 65% to 62%, and the participation rate for post-65 retirees was lowered from 40% to 25%. The rate of pre-65 retirees who are assumed to discontinue their coverage at age 65 was increased from 25% to 30%. These changes lowered the total OPEB liability.
- The trend rates were reset to better reflect the plan's anticipated experience. This change increased the total OPEB liability.

Difference Between Expected and Actual Experience

The primary driver of the \$4.5 billion experience gain was favorable claims experience, which resulted in lower overall 2023 retiree claims estimates than previously assumed.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Tornillo Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tornillo Independent School District (District) as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 23, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tornillo Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2023-001.

Tornillo Independent School District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Tornillo Independent School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Tornillo Independent School District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TORNILLO INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED AUGUST 31, 2023

FINANCIAL STATEMENT FINDINGS

2023-001 - State Procurement Compliance

Criteria: Texas Education Code 44.031 requires school districts to procure goods and services over \$50,000.

Condition Found: The District did not properly procure services for a project costing over \$50,000.

Effect: The District has not complied with Texas Education Code 44.031.

Cause: The District utilized a Board approved co-operative vendor to provide services to the District for phase I of a project. Unfortunately, when the District moved to begin phase II of the project, the vendor was no longer in business due to the death of the owner. To move forward with the project to phase II, the District erroneously utilized a quote from a business not in the co-operative instead of using another co-operative vendor. As such, services were procured in excess of \$50,000 from a vendor that was not part of the co-operative. The District should have gone through the bidding process if a co-operative vendor was not going to be utilized.

Recommendation: In order to be in compliance with Texas Education Code 44.031, we recommend the District ensure goods and services over \$50,000 are properly procured.

Management Response: See Corrective Action Plan

TORNILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED AUGUST 31, 2023

1. BASIS OF ACCOUNTING

The District accounts for all awards under federal programs in the general fund or a special revenue fund in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or committed for specific purposes by a grantor. Federal and state financial assistance is generally accounted for in a special revenue fund. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount. For the year ended August 31, 2023, the District predominately accounted for federal grant funds in special revenue funds, with the exception of the Child Nutrition Program, SHARS, and indirect costs, which were accounted for in the general fund.

These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due, and certain compensated absences, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. When grant funds are received before expenditures are made, they are recorded as unearned revenues until earned. Due to the nature of the reporting process for the SHARS program, the District recognizes SHARS revenue upon receipt of the reimbursements during the fiscal year and when the annual Cost Report is acknowledged by the federal government.

2. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal activity of the District under programs of the federal government for the year ended August 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Period of performance - The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H. Period of Performance of Federal Funds, Part 3, OMB Compliance Supplement - May 2023.
